

Client Service Input Technology Committee

MINUTES

Tuesday September 25, 2017

9:30am

Radisson Hotel, Sudbury

ATTENDEES

Ravil Veli, Gisèle Belisle, Mike Laverty, Jeremy Hughes, Brian Howard

Regrets: Jason Dokis, Ayla Morland

AGENDA

1. Review/approval of previous meeting minutes - **Approved**
2. New Members - **covered**
3. Terms of Reference - **covered**
4. Google
5. Other

DISCUSSION

- Jeremy is starting an eReader circulation strategy and should have more information to share with the committee as her progresses.
- Mike is considering purchasing Kobos
- OLSN Website should have a list of libraries and their related technologies for knowledge sharing purposes.
- Circulating Mobile wireless hotspots - What are other libraries doing and how are they paying for it?
- Libraries should be cautioned when following tech trends. Strategic direction should serve the patron's needs ahead of the libraries interests.
- Trends such as 3D printers do not necessarily bring value to public library.
- 3D printers appear to be unreliable.
- Mike suggests libraries become places where people can go and learn skills related to digital content creation.
- Mike questions the value of the current online databases (ie, Gale, Ebsco).
- Ravil suggests that libraries be surveyed every year or two about what tech they are currently using and also who their main tech person/people are.

ACTION ITEMS

- The committee will collaborate via email and Google + as needed.
- Brian will raise these items at the next planning and leadership meeting on Oct 23 with OLSN management.
- Brian will send out a Doodle poll for next meeting date.
