Seguin Public Libraries are digitizing our local area histories. We are inviting you, former Foley Twp. Residents, to join us at the Foley Branch Library, June 7th, for a Community Digitizing evening. We will post the time at a later date. If you are interested please bring along some of your old photos and take part in this event or call the library for more information. By contributing you are helping to preserve Foley's history!

To all residents living in the former township of Foley:

We are excited about the “Community Digitizing Project” happening at our Foley Branch Library, not only will it be a permanent way to document Foley’s history but it will be fully accessible to the public via the internet.

Have you got any memorable photographs in your family collection about people or places in the area?

Tuesday, June 7 is the evening that The Foley Branch Library, 76 Rankin Lake Road, would like to invite you over to share your photographs with us for the digitizing project.

Your photographs can be scanned that evening so that you can take your photographs home with you. We would also like you to share the history connected with the photos.
