The Friends of the Foley Library

“Come in and visit our quaint country library with all the amenities of a city library. We are located at 76 Rankin Lake Rd, Seguin Township.
Contact us: Phone/fax 378-0742
Email: foleyfriends@hotmail.com.

The name of March comes from ancient Rome, when March was the first month of the year and named *Martius* after Mars, the Roman god of war.

Well it seems Spring is creeping up on us rather quickly.....wow! Where did the winter go? We will soon be “itching” to get our hands dirty planting something, so here are a few tips for starting your seeds indoors.....

-Check the packet again, and, if instructed, aid germination by soaking, pre-chilling or scarifying the seeds

-If reusing, sterilize the seed trays and pots with a weak bleach solution and always use sterile soil. If using your own soil instead of a commercial mix, spread it in a shallow pan and set in a 180 C (350 F) oven for 30 minutes to sterilize it.

-One of the best spots for your seed trays is on top of your fridge. Why? The heat generated keeping your fridge cool warms the soil and speeds germination.

YES.....they will be back!!!!!!

Please note the Friends of the Foley Library are still hosting Wii nights on Tuesday's at the Library, 7pm to 8pm
