Green Screen

What we use:

Green Screen by Do Ink makes it easy to create incredible green screen videos and images right on your iPad or iPhone. The app lets you combine photos and videos from the camera roll with live images from your iPad or iPhone's camera. Featured in "Best New Apps in Education" in iTunes and classroom-tested by kids and teachers, this app emphasizes ease-of-use and simplicity while still enabling you to get fantastic results. With Green Screen by Do Ink, you can tell a story, explain an idea, and express yourself in truly creative and unique ways.

Price: \$22 to \$160

Retro Pi

What we use:

CanaKit Raspberry Pi 3:

A Raspberry Pi is a credit card-sized computer originally designed for education, inspired by the 1981 BBC Micro. Creator Eben Upton's goal was to create a low-cost device that would improve programming skills and hardware understanding at the pre-university level.

Price \$50 to \$100
